

Partnership for Carbon Accounting Financials

# Commitment Letter

**PCAFA**

Partnership for  
Carbon Accounting  
Financials

## Commitment Letter

All financial institutions involved in the Partnership for Carbon Accounting Financials (“PCAF”) subscribed and adhere to the following commitment. By joining PCAF, also our financial institution commits to adhere to this:

*Addressing the urgent challenge of climate change, and decarbonizing our economy, is more pressing now than ever. That is why we have committed to measure and disclose the greenhouse gas (GHG) emissions associated with our portfolio of loans and investments within a period of three years using jointly developed carbon accounting methodologies, in order to ultimately enable the alignment of our portfolio with the Paris Climate Agreement.*

*We want to share and learn from credible carbon accounting practices to find solutions to shared challenges. We hope this will encourage and stimulate the adoption of carbon accounting and target setting in the financial sector on a larger and mainstream scale.*

*We will contribute to the overall objective of PCAF, which is to secure the public commitment (via signed commitment letters) of at least 100 participating financial institutions globally to measure and disclose the GHG emissions of their loans and investments within a period of three years. Together we will collaborate to achieve transparency and uniformity in carbon accounting.*

*We acknowledge that our commitment will be recognized on the PCAF website and social media account, as well as at other communication activities such as events where the initiative is showcased.*

## Introduction

The Partnership for Carbon Accounting Financials (PCAF) is an initiative led by the financial industry to develop a harmonized global standard to measure and disclose the greenhouse gas (GHG) emissions of loans and investments, in order to ultimately enable financial institutions to set science-based targets and align their portfolio with the Paris Climate Agreement. The partnership is open-access and free-of-charge. Over 50 financial institutions globally, from small to large, from banks to investors, covering all regions have joined so far.

## Financial Institution Information
